

## Scenarios:

1. Log in to your WordPress site.

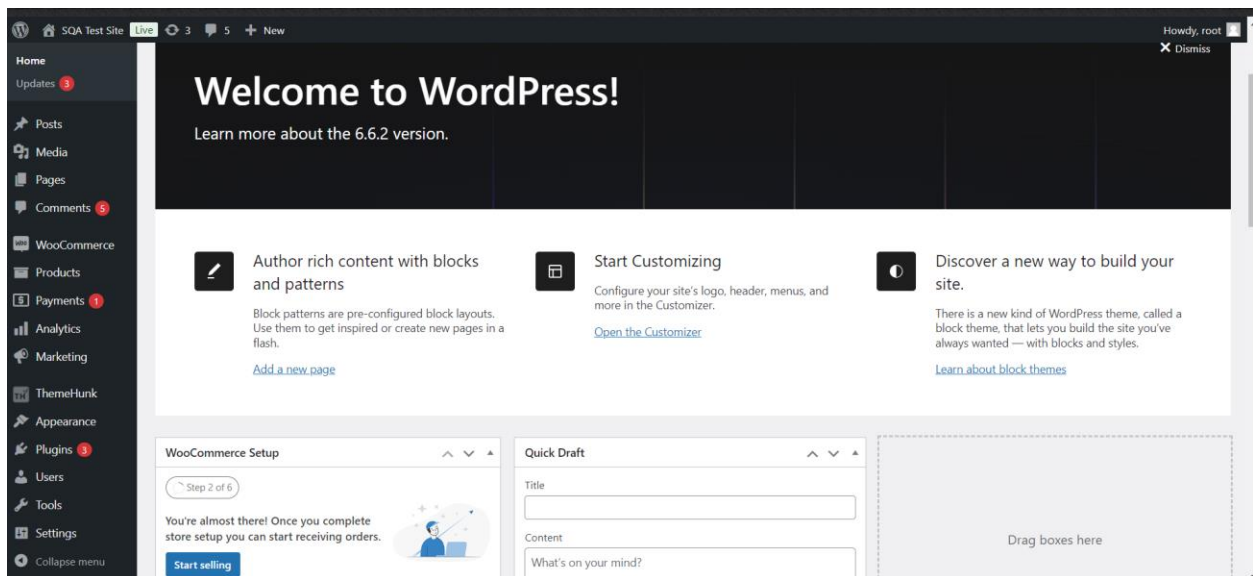

The image shows the WordPress login interface. At the top center is the WordPress logo. Below it is a login form with the following elements:

- A text input field for "Username or Email Address" containing the text "neelima".
- A text input field for "Password" containing the text "admin". To the right of this field is an eye icon for toggling password visibility.
- A checkbox labeled "Remember Me".
- A blue "Log In" button.

Below the login form, there is a link "Lost your password?" and a link "Go to SQA Test Site".

### a. WP LOGIN

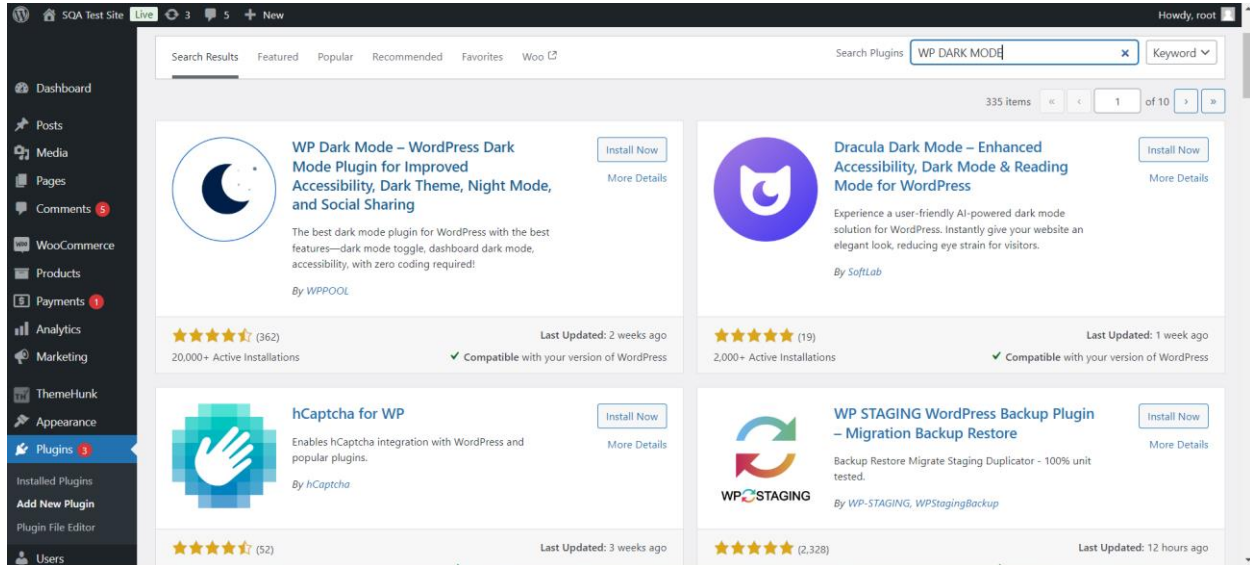

The image shows the WordPress dashboard. The top navigation bar includes the site name "SQA Test Site", a "Live" status indicator, and navigation links for "3" updates, "5" comments, and a "New" button. The left sidebar contains a menu with the following items: Home, Updates (3), Posts, Media, Pages, Comments (5), WooCommerce (Products, Payments (1), Analytics, Marketing), ThemeHunk, Appearance, Plugins (3), Users, Tools, Settings, and a Collapse menu button. The main content area features a "Welcome to WordPress!" header with a link to "Learn more about the 6.6.2 version." Below this are three featured sections:

- Author rich content with blocks and patterns:** "Block patterns are pre-configured block layouts. Use them to get inspired or create new pages in a flash." with a link "Add a new page".
- Start Customizing:** "Configure your site's logo, header, menus, and more in the Customizer." with a link "Open the Customizer".
- Discover a new way to build your site:** "There is a new kind of WordPress theme, called a block theme, that lets you build the site you've always wanted — with blocks and styles." with a link "Learn about block themes".

At the bottom, there are two sidebars. The left sidebar is titled "WooCommerce Setup" and shows "Step 2 of 6" with a "Start selling" button. The right sidebar is titled "Quick Draft" and contains fields for "Title", "Content", and a prompt "What's on your mind?". To the right of the "Quick Draft" sidebar is a large dashed box labeled "Drag boxes here".

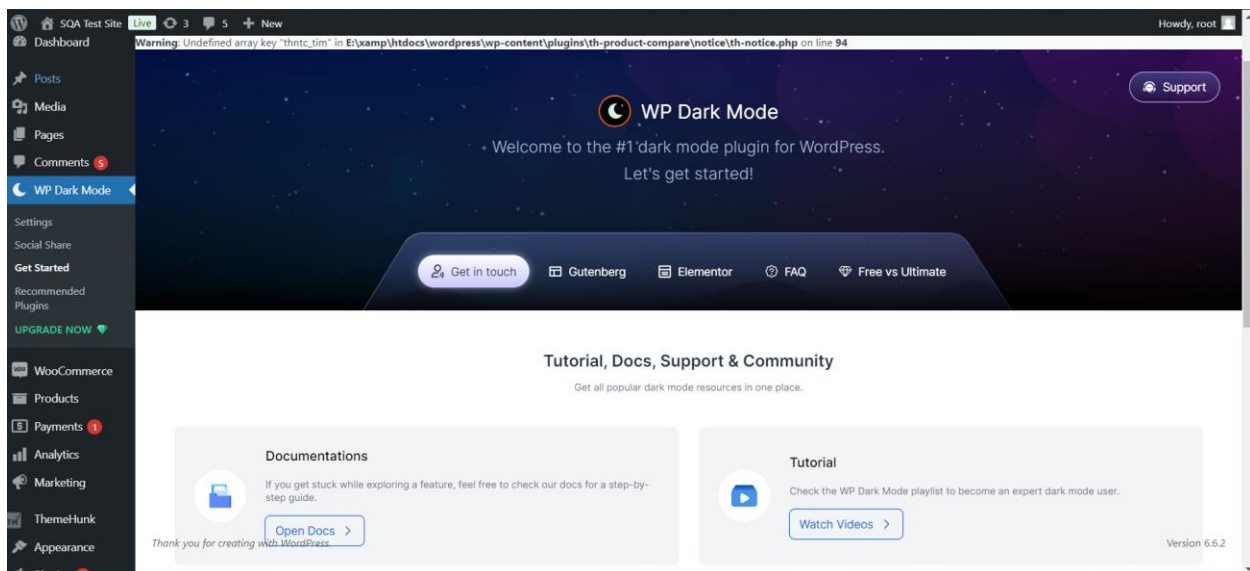

### b. Dashboard

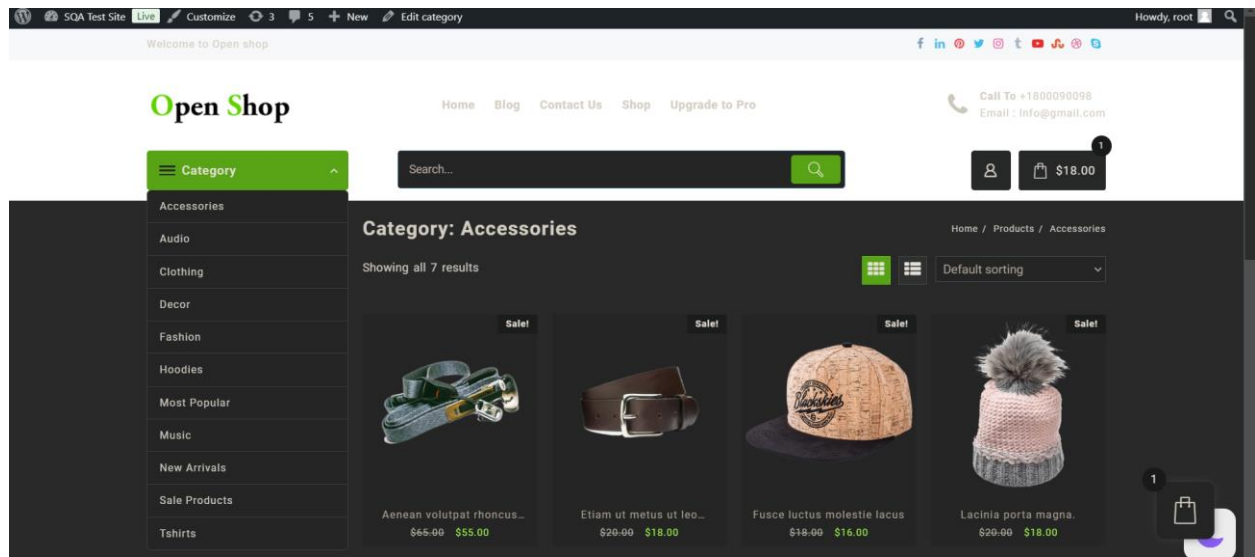

## 2. Check whether the “[WP Dark Mode](#)” Plugin is Active or not.

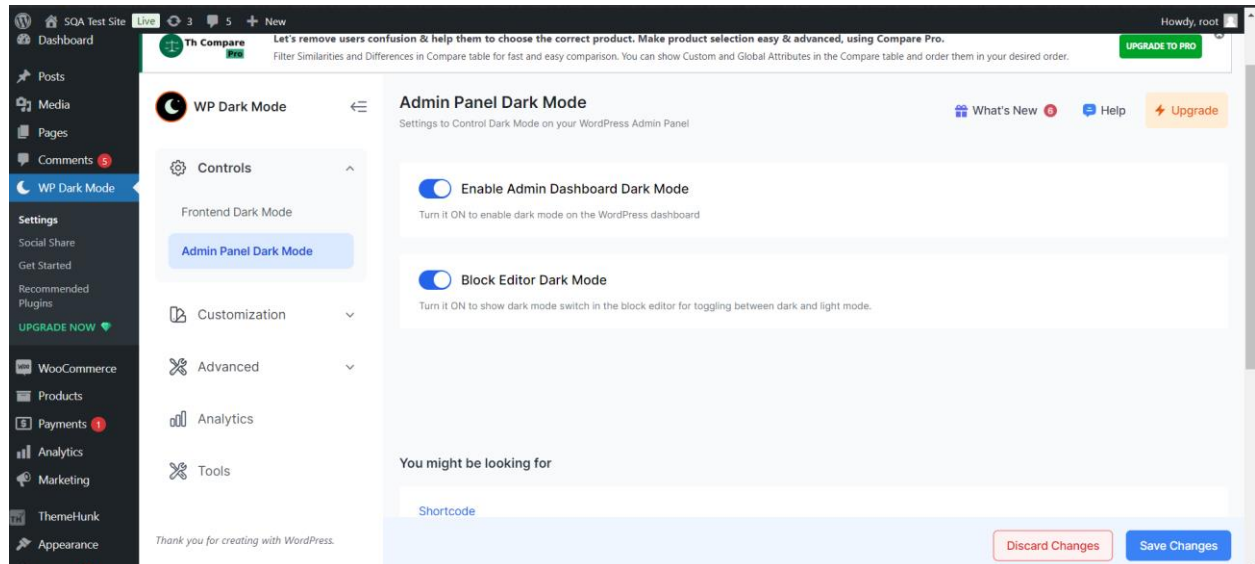

### a. Install dark mode

## 3. If Active, navigate to the WP Dark Mode & continue. Otherwise, Install the Plugin and Activate it.

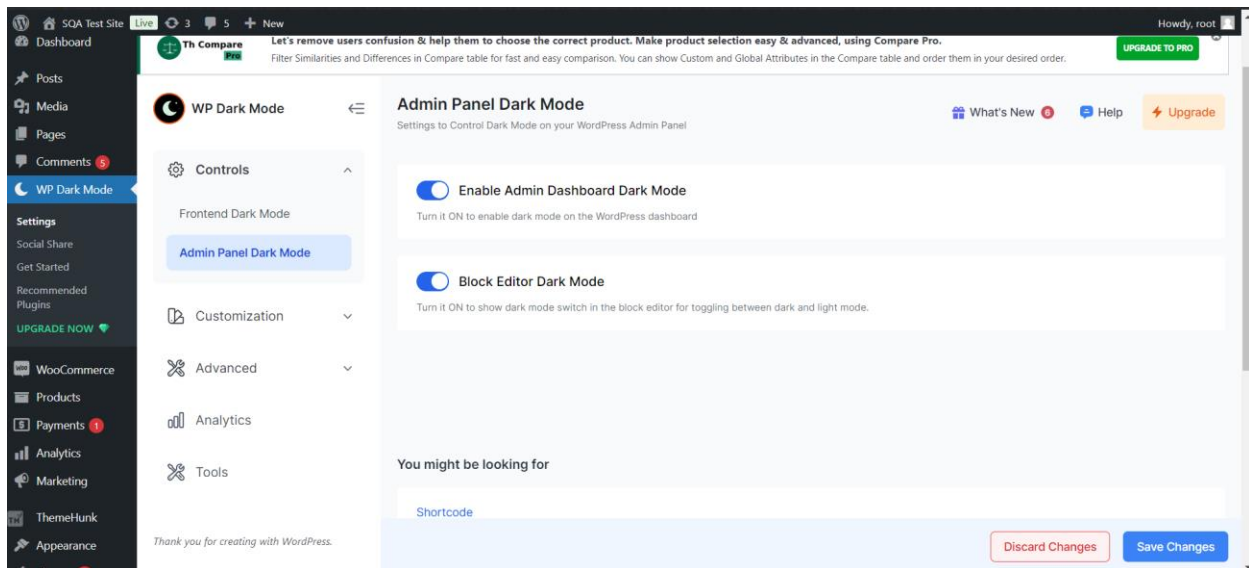

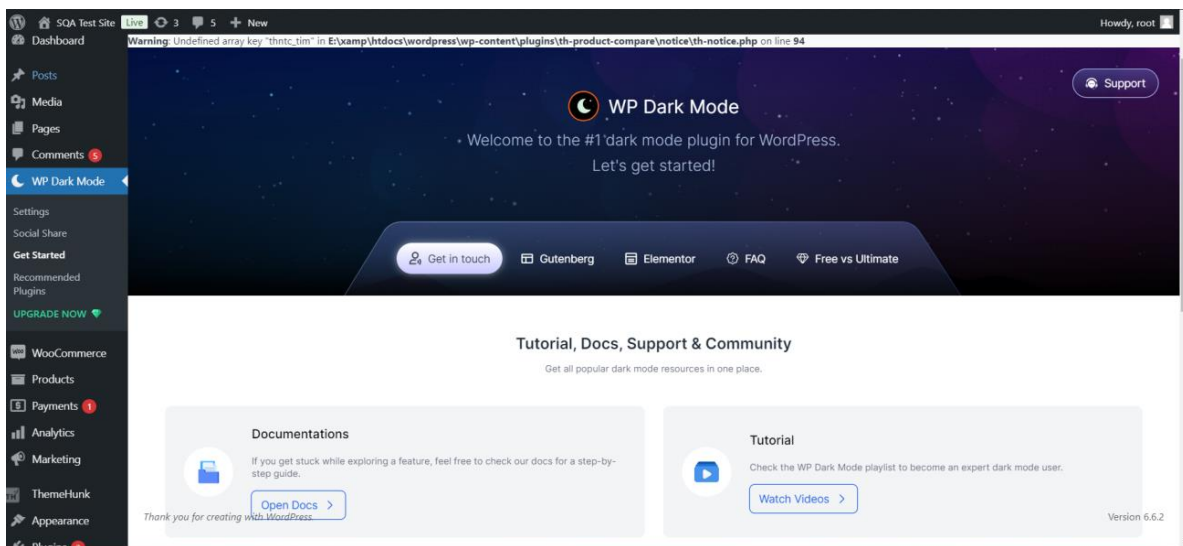

4. Enable Admin Dashboard Dark Mode from Controls → Admin Panel Dark Mode.

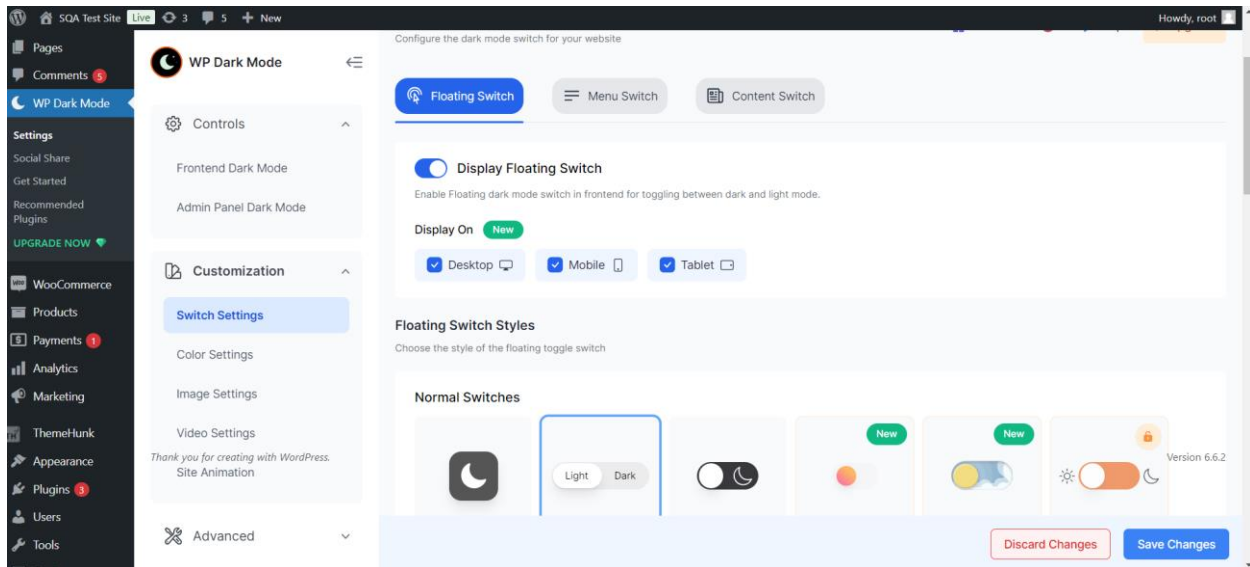

5. Validate whether the dark mode is working or not on the Admin Dashboard.

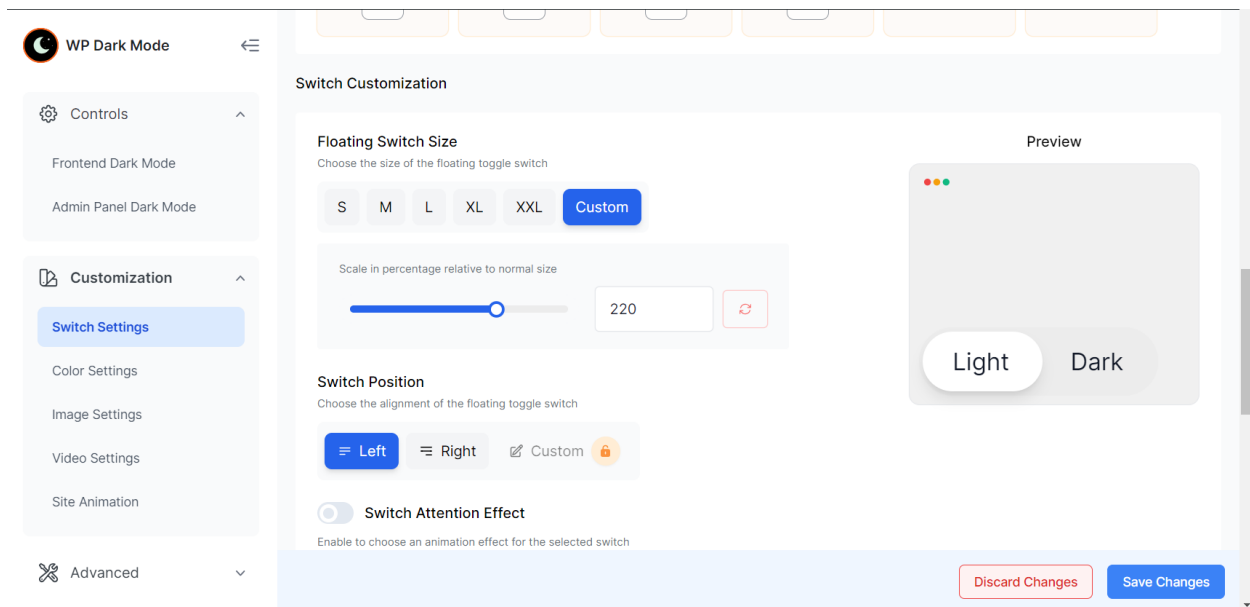

6. Navigate to the WP Dark Mode.

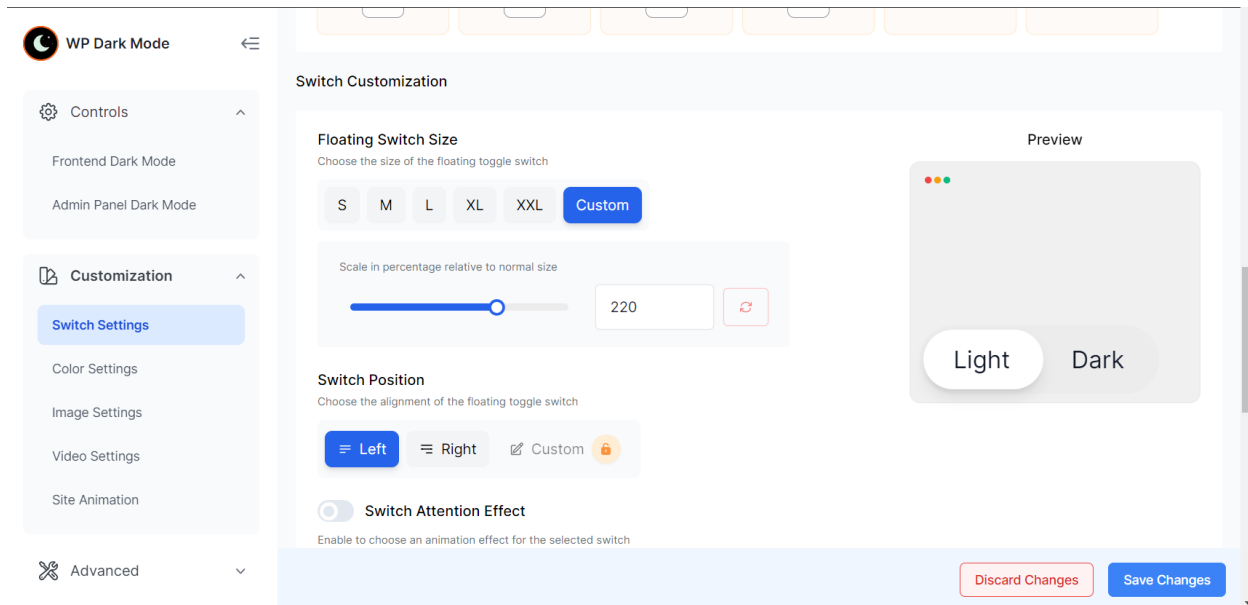

7. From Customization → Switch Settings → Change the “Floating Switch Style” from the default selections (Select any one from the available option except the default selected on).

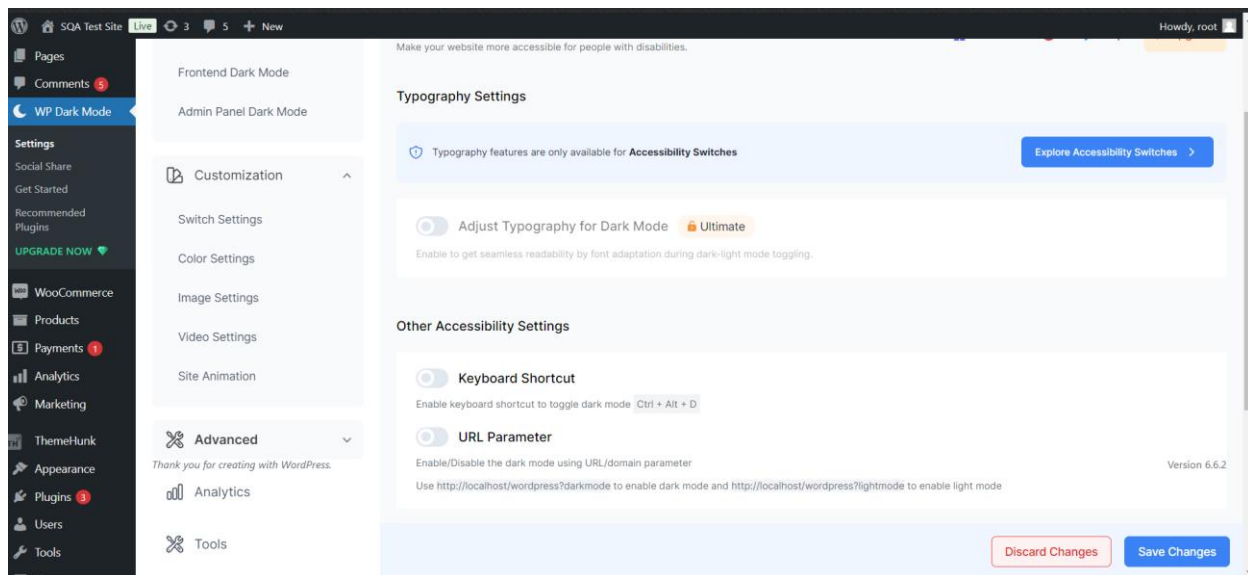

8. From Customization → Switch Settings → Switch Customization - Select Custom Switch size & Scale it to 220.

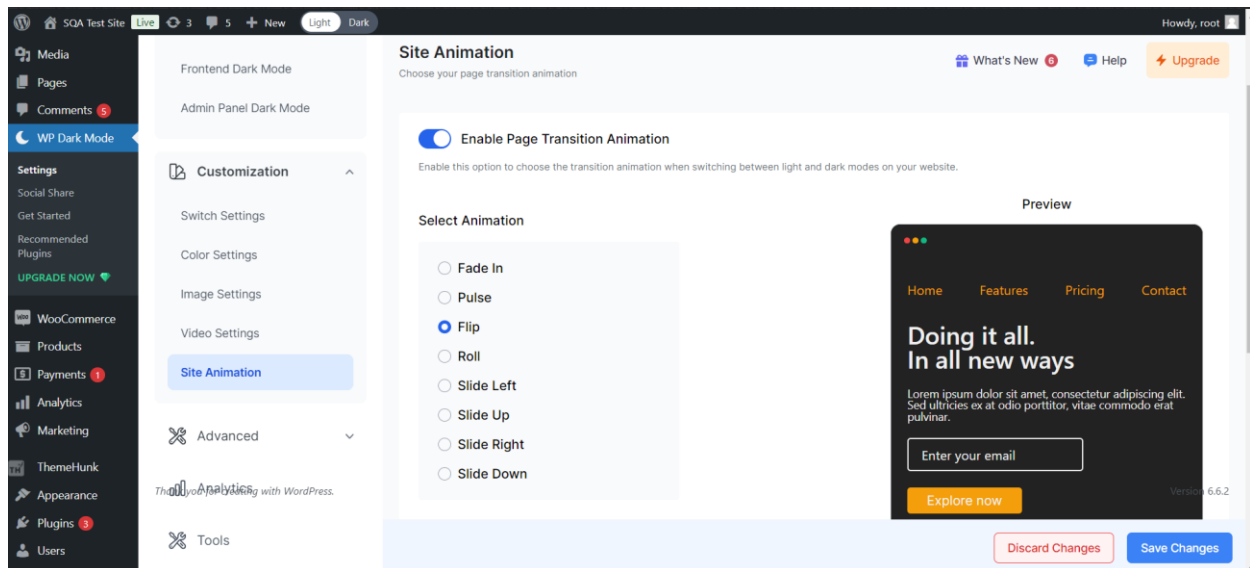

## 9. From Customization → Switch Settings - Change the Floating Switch Position (Left).

## 10. Disable the Keyboard Shortcut from the Accessibility Settings.

11. From Customization → Site Animation → “Enable Page-Transition Animation” & change the Animation Effect from the default selections.

12. Validate whether the dark mode is working or not from the front end.
